

How We Help You Hire Like a Pro

Scan link to get started!

1

The Challenge

Finding experienced stylists isn't easy—especially when you're managing a busy salon. Posting a job and hoping for the best isn't enough. You need a targeted approach to attract the right talent that fits your brand and culture.

2

The Spark Solution

We take the guesswork (and grunt work) off your plate. Spark Pro Global handles the research, outreach, and engagement—so you can focus on running your salon.

3

Custom Stylist Database

Your Spark Assistant builds a personalized list of local stylists, including their experience, specialties, IG handles, and contact info—so you know exactly who to reach out to.

4

Personalized Outreach

Connect with stylists through tailored DMs, emails, or calls. We'll even help craft the perfect message. Plus, we boost visibility by engaging with their content from your salon's profile.

5

Real Results

One salon hired 2 veteran stylists in just 8 weeks—plus saw a 12% increase in bookings through Instagram. Strategic, simple, and stress-free.
